

In order to help student members to have a fruitful job hunting journal and a smooth transition from student to young professional, COPA hosted a workshop on Saturday July 20th 2013 at Chinese Civic Center. Attendees include more than 20 students from University of Texas at Austin, Penn State University and Ohio State University. Four professionals from COPA shared their insights and suggestion in job-hunting and early career development. Extensive discussions conducted through this workshop and it was much welcomed by student members. This workshop fell into the scope of COPA commitment to promote members in petroleum society.

COPA would like to give credits to the four experts for their contribution to this workshop. They are:

- Liao Yuzhu: Reservoir Engineering Advisor, Repsol
- Li Weiguo: Geologist, BP
- Sun Hao: Reservoir Engineer, Chevron
- Lu Bo: Reservoir Engineer, BP
